ABOUT US

Established - **2005**

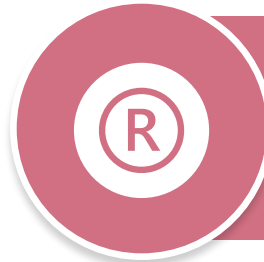

From - **Chennai**

Founder - **Karthick**

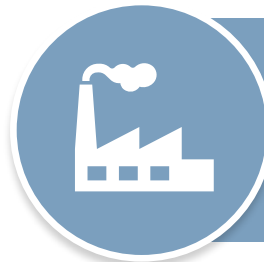

“Safety for both pedestrians and utility employees has driven SS Industries to produce the safest manhole cover possible”

We are the leading manufacturer and supplier of quality access SFRC Manhole Covers and frames, together with a range of other products allied to the building and civil engineering industry

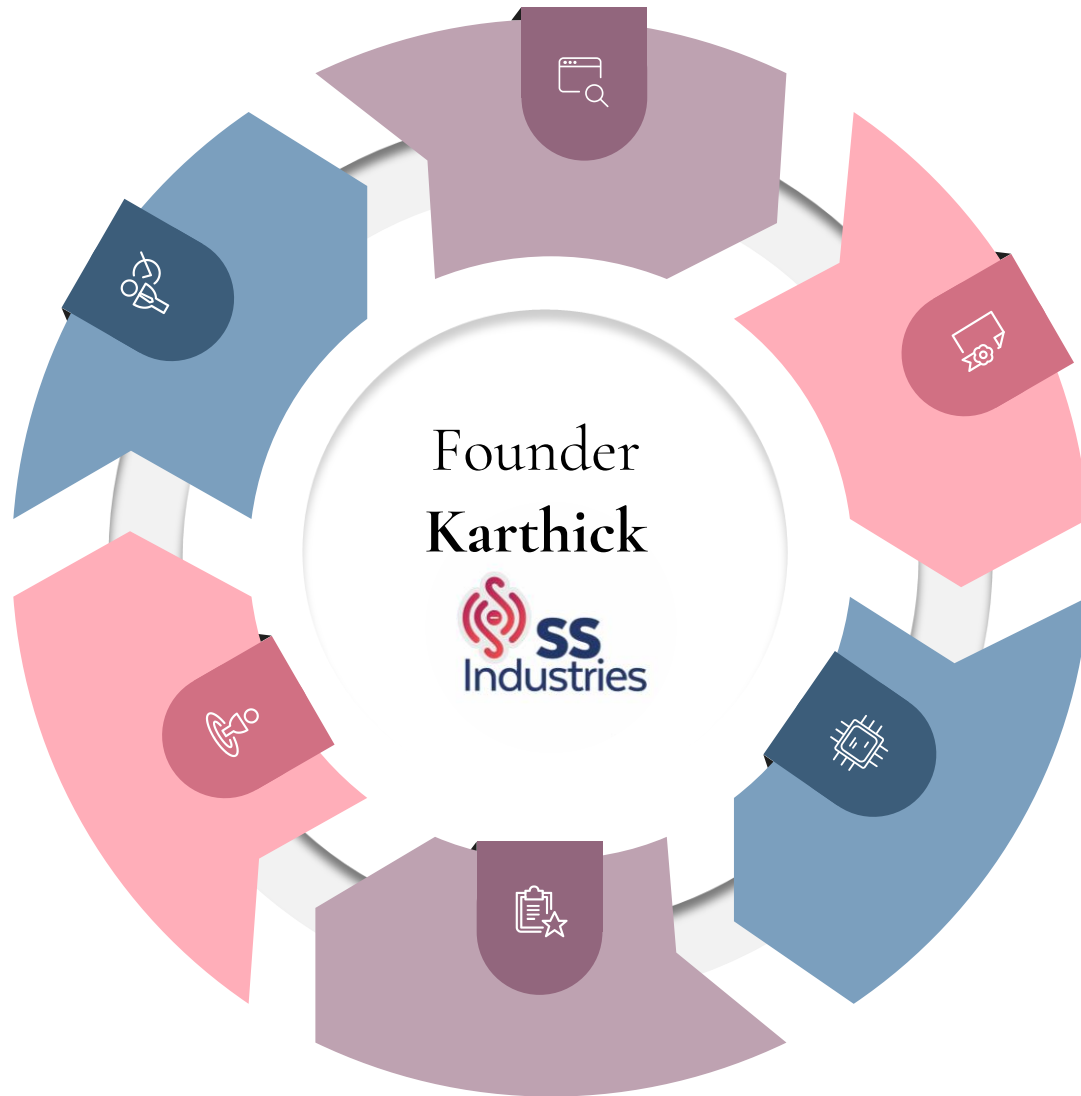

Founded on a tradition of quality and innovation, SS Industries has been at the forefront of composite technology since 2005 for manufacturing and marketing facility allows us to fabricate an extensive range of high quality, standard and custom-made products

Our factory is situated in the Industrial Area of Chennai and our Manufacturing unit has a plant capacity to cater to its customer's demands. We supply as per schedules and specifications of the clients.

We have ensured the concern of our clients about quality. We have been known for our innovation and for establishing the new standards in terms of quality produced by us.

Founder's Message

We are committed to reducing our footprint and making our communities cleaner and stronger. We are continuously working towards certifications and processes to become greener

We work continuously to reduce manufacturing wastes through lean initiatives but also work to ensure the scrap that is produced is recycled

As one of our core values, our commitment to the environment defines our company culture. We care about the community and want to do our part

Our Mission

To help every customer have a positive memorable experience

Our Vision

To have a positive impact on the lives of our customers and our team

Our Values

To be open, honest and fair...whatever we do, we do it right, and we do it together

OUR JOURNEY

JOURNEY CONTINES

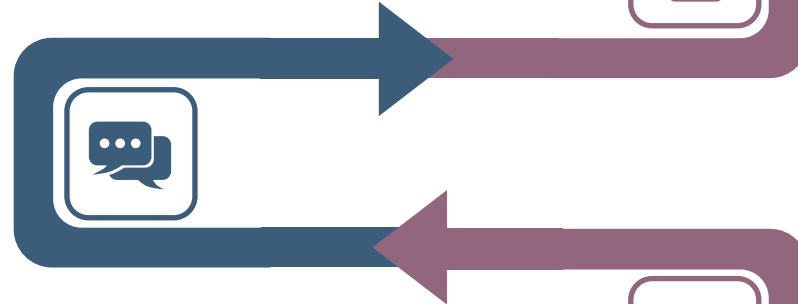

2015
Successfully launched our new infrastructure building with new innovations products

2021
Our delivery footprint spread across India

2008
After multiple researches and experiments we introduced multiple products

2012
Company expansion and acquisition of land

2005
Inaugurated SS Industries with the production of Manhole covers

Advantages of Steel Fiber Reinforced Concrete

Several advantages can be obtained from SFRC, for example:

Concrete:

- ✓ Flexural bending strength can be increased by up to 3 times more than conventional concrete
- ✓ Eliminate shrinkage cracks
- ✓ Reduce curling
- ✓ Increase in transverse and longitudinal joint spacing.
- ✓ Load capacity is not diminished by concrete cracks.
- ✓ Increased concrete durability

Resistance:

- ✓ Fatigue Resistance: An almost 1.5-time increase in fatigue strength.
- ✓ Abrasion Resistance: More effective composition against abrasion and spalling
- ✓ Resistance to cavitation or erosion damage.
- ✓ Increased impact resistance.
- ✓ Improved flexural properties.
- ✓ Resistance to freezing and thawing

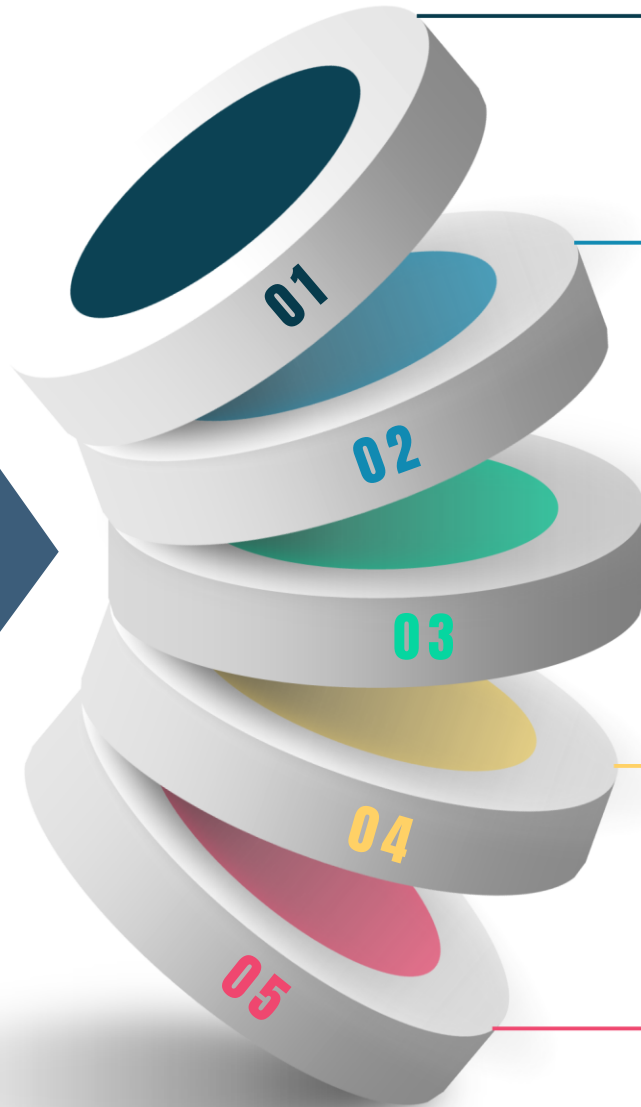

Environmental:

- ✓ Reduced absorption of water, chemicals, etc.
- ✓ Reduces surface permeability, dusting and wear

WHY CHOOSE US

INTEGRITY

Flexible Pricing Options

We help our clients with highly affordable and flexible pricing options which will suit their business requirements and budget perfectly

Skilled Team

Our team comprises some of the most experienced and skilled who can cater to all your requirements with ease

Error-free Supply & Services

Being a professional firm, you can rest assured that all the services delivered by our team will be of the best quality and error-free

Highly Scalable Services

We have the required skills and bandwidth to scale up the requirements and ramp up the project team size

Quick Turnaround Time

We operate through several delivery locations across India. This allows us to deliver the best quality services within a quick time.
